

Part 1 – General Information for Manchester Met Outbound Exchange Students

Before you start an overseas exchange, you must ensure that your exchange is supported by your academic department. You must also have **submitted the relevant application forms**, and have had your exchange **approved** by the **Student Mobility team**.

You should contact the Student Mobility Team **immediately** if you make any changes to the original length of your exchange, such as if you arrange to spend a longer time on your exchange than you originally agreed, or you decide to return home early. You should also contact the Student Mobility Team if you decide **not to start** an exchange that has previously been approved.

The tuition fees you will be charged will depend on your **student status** (Home/EU/Overseas/Channel Island), the **type of course** you are enrolled on, and the **duration** of your exchange. Any changes to your initial exchange may have financial implications.

The Student Mobility Team (based in the International Office) should be your first point of contact for any queries regarding your exchange.
